The Wall in the Wilderness is a spectacular display of craftsmanship located deep within Tasmania. The history of the Tasmanian Highlands is depicted in Huon Pine carvings, all done by the hand of skilled creator, Greg Duncan. Find yourself awed at the incredible detail in each carving, of which each metre took one month to create. Enjoy the lovely warmth of the building, provided by a roaring fire as well as a lovely hot drink before heading back to the waiting helicopter.

\*All flights are subject to desirable weather conditions, the flight path may be varied and therefore some highlights may not be included.
